Subject: CER in FOREIGN POLICY WHITE PAPER

Good Afternoon

I am an Australian currently living in USA. Following Brexit and Trumps victory, I would like to pass the idea of future prosperity with the following countries and markets in a similar way such as the CER or CERTA Australia has currently established with NZ. The following countries and markets make more sense.

Canada
Singapore
EFTA (Switzerland, Norway, Iceland and Liechtenstein)
UK
USA

This mean more freedom of people movement, movement of goods, movement of services and movement of capital or investment without the need of ISDS clause.

North and south hemisphere will contribute towards fresher agricultural goods and the East and West of such Zone with contribute to 24x7 service industry. I see Australia as the biggest beneficiary in such an economic zone, with our climate, culture and unique geographic location, will make us favorite in this zone. I see big investments and technology poring into Australia especially from USA, UK and Singapore.

I hereby request you to consider such a CER zone with the countries and markets listed for our future foreign policies.

Kind regards
Amal Barathi
