Subject: Adenda to recent submission

In conclusion to previous comments, I would like to add that is important that Australia maintains its alliance with Israel. This "hot spot" is pivotal to our whole well being. It is good that America has changed its administration since Obama has been hypocritical with his messages to Israel and since Australia has been inclined to follow America closely, thank God we now have two leaders on the same track!

Biblical prophecies may not seem important to the majority but they are not being ignored. Go against them and we are in peril. We have been very blessed as a Nation because our allegiance has been pro Israel, let us not lose favour now and let us be insightful moving forward cautiously in wisdom not to be distracted by deception and lies. I pray that the people of Australia be patient and allow this government under Hon. Malcolm Turnbull to be directed with all truth. We are in unprecedented times and we are not to be hurried or frustrated by what others do against us.

Thank you for this opportunity,
Regards
Gail Cole
